This is an adventurous story that has been passed on to us from generation to generation. It is about how seeds discovered their path towards life.

**Let's get to know
the heroes of our story**

**This is PiPo
he is a peach seed**

**This is Appo
he is an apple seed**

**Let's know
more**

**This is Meggo
he is a Mango seed**

**This is Appi
he is a apricot seed**

Well done !!

Pipo, Appi, Meggo, and Appo,
were very close friends.

One day they decided to
make a huge birthday
party for their friend Appo.

By the time Appo left,
his friends started decorating
the house and preparing everything
for the party to be Amazing!

While Appo was walking in the woods, suddenly a man saw Appo and decided to take him home to plant him. Appo was so scared and angry. He tried to escape, but he couldn't.

Appo's friends were waiting for him
to come back but he didn't.

They waited and waited and
were very worried. Days passed,
waiting and still Appo did not show up.

All his friends were
worried, so they
decided to search for him.

Appo's friends were very tired searching for but still couldn't find him.

Unexpectedly,
they found a small
house and decided to go there
in search for Appo.

**When they reached the house,
they hear a voice singing.**

**This voice was very similar
to Appo's Voice.**

All of his friends started shouting,
APPO WHERE ARE YOU

APPO WE ARE HERE FOR YOU

Appo hear them and said:

I am here planted in the soil.

His friend replied:

What soil ?

What is soil we don't understand !

How did you change into a small tree ?

Appo said: Soil is the thin layer of material covering the earth's surface and is formed from the weathering of rocks. It's color is brown. I am in a pot near the window come and see me how I grew.

Appo's friends were shocked
when they saw him.

They started asking him:
(Appo is this really you?)

How did you change into a small tree?

Can we change you back into
a seed and take you with us?

Appo started laughing, and he explained to them that this process is called planting.

Appo: when I was walking down the woods to bring a medicine for Meggo, a small kid took me and put me in a pot filled with soil. I was very afraid first but, I started growing and felt so happy when drinking water everyday and seeing the sun. few days

later, I started to grow, and this is how I became a small apple tree which will be full of apples.

WOW!!!

Appo's friends liked the idea so much!

They asked him if there is a way for them to be planted and change like him. Appo called his friend who planted him and asked him if he can plant them too.

The boy was very excited to see the three seeds, so he took them and started planting them beside Appo. The boy made sure to provide them with soil, water, and sunlight in order to grow.

Days passed

and the seeds started to grow.

They were so happy that they were now actually a plant.

After a year these plants turned into trees full of fruits.

Pippo: I know that I am a peach tree now. I look wonderful!

Meggo: Oh, Pippo don't you see my tasty Mango's? I am more beautiful and tastier than you.

Appi: Hey you guys, don't you see how marvelous my apricots are? I am sure that people will like my fruit more.

Appo started laughing and he said:
All of you are beautiful and tasty including me. Stop fighting, you should be happy that you have grown and turned into stunning trees.

The End
