

# Prairy with Fairy

Written by Karen Fadel

Illustrated by: Alexandra Mikhael & Karen Fadel

Prairy is a student in KG3 who used to go to school by bus. The driver was always upset with Prairy because she never said a “Good morning” or any nice word. The Gateman, always tried to show Prairy a big smile, but she never returned the smile

---

Prairy never listened to her teacher when she asked her to sit in her place. She went to her friends' desks and took their stuff because she always lost her things. She was not tidy. Prairy always spoke without permission, in a loud and screechy voice.

---

None of her friends wanted to sit next to her because her desk was always messy. One day, Prairy was feeling sad. She needed to have friends to play with them. Suddenly, a beautiful fairy showed up with her magical wand.

---

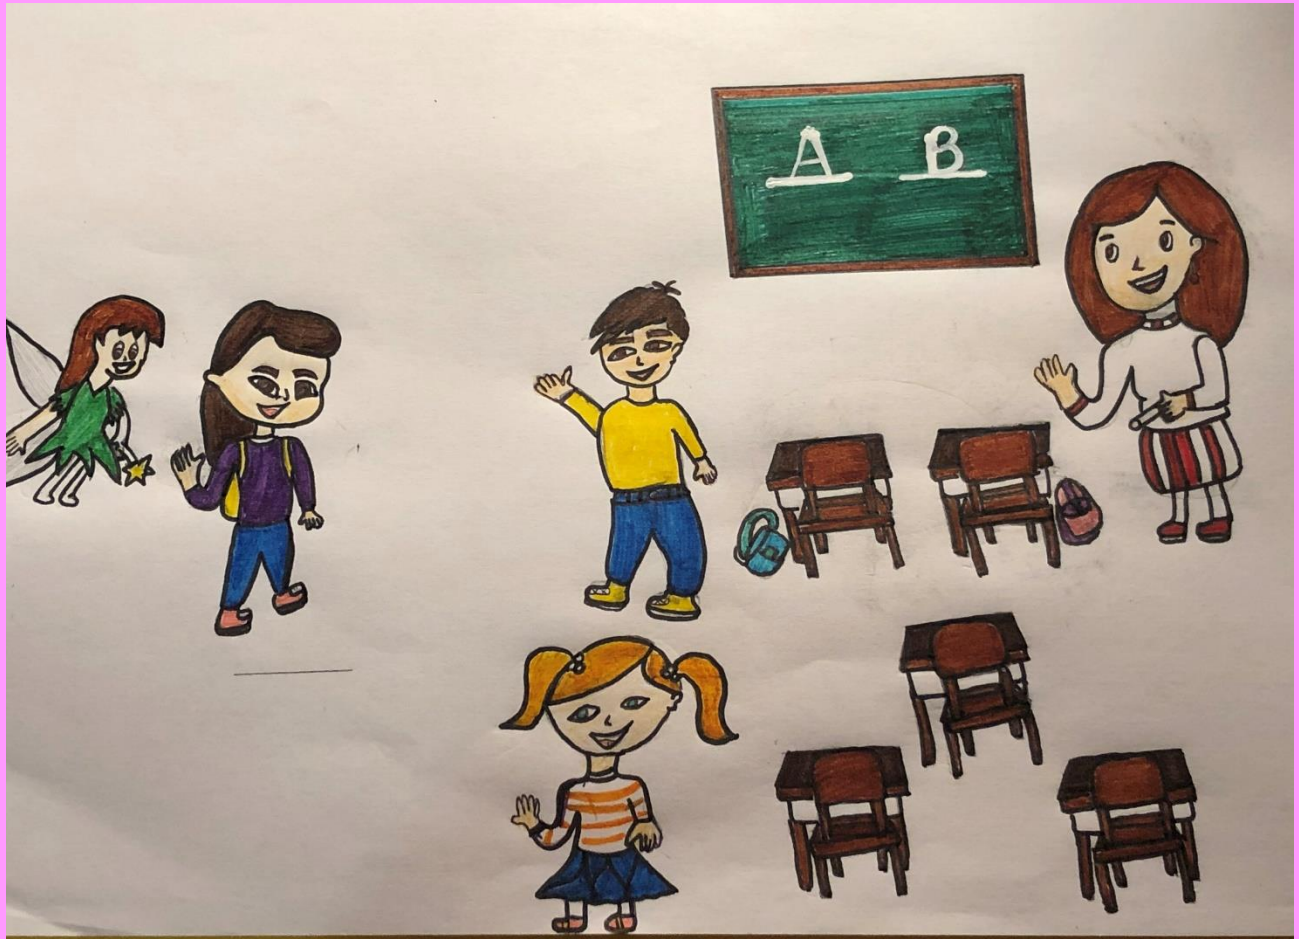

Prairy did not believe her eyes that she was seeing a fairy with her magic wand for her first time. “Pretty Fairy, I’m sad. Very sad. Said Prairy.

The kind Fairy asked her: “Why are you sad?”

Prairy said in a low tone: “I don’t have friends. I can’t play with anyone Why? Why? What have I done?”

The Fairy looked around, frowned and said: “Look at your messy desk. There’s a mirror. Look at yourself when you get on the bus, when the gateman smiles at you. Do you think that you can have friend?” Prairy told the Fairy about her problem. The kind fairy transformed the emotions and actions of Prairy to well mannered, helping her friends, be clean and tidy and became organized.

---

The day after, the fairy went with Prairy to school. For the first time, she saluted the bus driver, the gateman, the teacher, and all her friends. Her desk was clean and she had a clean bag. Every time she needed to speak, she raised her finger up to take a permission. Prairy was feeling very happy and she played with all her friends.

Prairy decided to be nice, kind, helpful, have good manners and be polite. All her friends were surprised. They waited until the bell rang and told Prairy that they are proud of her.

---

**In the end all her classmates became her friends, loved her, and played together in the playground.**
