

# Storytelling with Timeline JS

Dalal Rahme

Data Services Librarian

# What is Storytelling?

Storytelling is the **interactive** art of **using words** and **actions** to reveal the elements and images of a story while encouraging the **listener's imagination**.

# Why Storytelling is so Important?

**Stories evoke emotion**

**Stories persuade**

**Stories bring context**

**Stories provide interaction**

# Elements of Storytelling

---

# Timelines

- A graphical representation of a period of time, on which important events are marked.
- a chronological arrangement of events in the order of their occurrence.
- a schedule for when a process or procedure will be carried out.

# Timeline JS Demo

<https://timeline.knightlab.com/>

- Open-source tool
- Enables you to create interactive timelines
- Easy to use

# Hands-On

In groups or individually create a short story, four or five records to tell a story using timeline JS:

- Choose a topic, a message you want to convey
  - Choose the character
  - What is the conflict
  - The plot
-
