Dear Cynthia,
Of course. It's a great exposure for the program, the course and the students. Thanks for including them.
Best regards,
Mona

Subject: student proposals for the UP630 course

Dear Mona

As you know, we hired Mona Khechen to help us create the 'architecture' for a database of Neighborhood Initiative supported or related projects. We are in the process of putting it together now with the help of the AUB library and the IT department.

May I ask for your permission to include the final proposals of students in last spring's UP630 course? You gave me the final versions so I just need your approval.

Many thanks and regards
Cynthia
